

SCHOOLEY  
MITCHELL

## TESTIMONIAL: Adam Baker

**M**y first six months as a Schooley Mitchell Franchisee have been incredible. As someone who was leaving the corporate world, I thought I was venturing out on my own – no safety nets, no support system, just me! On the very first day of training, I realized I wasn't alone at all and every day since, I've had all the support I needed. Whether I had an IT question, needed help setting up my social media, had requests for articles or templates, wanting an update to my website, or just guidance developing a plan to get me going in the right direction, the level of support I have received is well beyond any expectation I could have set.

What the Franchise Development team at Schooley Mitchell have done is given me the freedom to learn and run my business while also providing me the help and guidance I need to be successful. I truly feel like I have a group that wants to see me succeed and are invested in me.

I love when people ask me what it's like to work by myself. I proudly brag, I don't work by myself, I have an incredible, top-notch team that I get to work with every day, and I truly appreciate them! If this sounds like you, give Dennis your money!
