

**SCHOOLEY
MITCHELL**

TESTIMONIAL: Amanda Chevrier

Since joining Schooley Mitchell in January 2022, I have had a lot of fun and been rewarded with new clients every month. Prior, my Chartered Professional Accountant (CPA) career provided the opportunity to work with and develop relationships with private business and dabble in sales of professional services. I realized that these facets were what I enjoyed the most.

I am an independent person with a high work ethic from a family of entrepreneurs. These experiences and background led me to Schooley Mitchell. Plus, I genuinely get excited to help businesses save money. It is a valuable offering.

The guidance and mentorship that I have received from head office has been exceptional. I feel like head office is rooting for me. Everyone at head office is personable and available to answer any question. It brings piece of mind having a RAMP Coach that I can go to for all concerns. The Marketing team has been phenomenal and gone above expectation; they will assist me with any social media post or write up requested. Plus, they produce a quality piece in a timely manner. I like that Schooley Mitchell is open to and helpful in any of my sales or marketing ideas; franchisees do not need to conform to a box.

My success is due to the combination of the training and support provided by Schooley Mitchell and my efforts all while adding my own flare. Schooley Mitchell is ideal for someone who is personable, communicative, self motivated, ambitious, and takes pride in building something from scratch to call their own.

If this sounds like you, give Dennis your money!
